Notes:													
* 2003: 10% target for cancelling serials in SERG.													
* 2002: Duplicate Wiley subscriptions cancelled in SERG.													
* 2001: Swain cancelled print CA and two duplicate journals in order to reallocate funds to other titles. The Heffner Applied Physics Memorial Reading Room was closed Summer 2001.													
* 1994: Branner cancelled a significant dollar amount of subscriptions. Swain cancelled all G&B subscriptions and reallocated funds for CAS Online access.													
* 1991: Applied Physics serials budget cut entirely in 1991? This is estimated at \$20,000.													
* 1990: Dollar amount for Math/CS journals cancelled is unknown but small.													
* 1985: Branner cancelled 100 titles as part of a Stanford University wide cancellation project.													
* 1979: SERG wide cancellation project. Thousands of titles cancelled SERG wide. Newsletters were a particular target. (The number of titles cancelled was so large it took staff more than 2 yrs to deal with resultant paperwork.)													
* 1977: Large Cancellation Project in Branner Library. May have incl. other Science Libraries. More than 100 titles cancelled in Earth Sciences alone.													
* 1965-1988: According to kardex for Chem & Chem Eng Library, 40 titles were cancelled between 1965-1988 (\$ unknown).
